DETAILED ACTION

1. This is in response to the applicant's communication filed 10/05/05.

REASONS FOR ALLOWANCE

2. After further search and thorough examination of the present application and in view of the applicant's arguments, claims 1, 3, 5, 6, 8-16, 23-35, and are found to be in condition for allowance over the prior art made of record.

2. The following is an examiner's statement of reasons for allowance: Although the prior art of record teaches a system for checking magnetic and wireless tickets, which include magnetic reading circuits for reading the magnetic tickets, wireless transmitters for communicating with the wireless tickets, etc., the prior art of record fails to disclose or fairly suggests all the details of the claimed invention, including using a first/second/third juggling device for juggling the information read from the tickets, prohibiting devices for prohibiting inserting of the magnetic tickets, etc. These limitations in conjunction with other limitations of the dependent and independent claims were not shown by, would not have been obvious over, nor would have been fairly suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
